ARYAV AWG

Air to Water Generator
★★ Pure Air. Pure Water. ★★

DRINKING WATER

ACCESS OF DRINKING WATER

Globally 1.1 billion people don't have any access to drinking water

CLEAN DRINKING WATER

9 out of 10 people don't have an access to Clean drinking water and are consuming contaminated or acidic water

WATER RELATED DISEASES

Every 90 sec, a child dies because of water related diseases

SANITATION ISSUES

Without access to clean water, there is no way to clean food, dishes, or people.

Out of 79% water on Earth's surface,
only 0.5% is Drinkable Water!

WHAT IS ARYAV AWG

Aryav AWG extracts water from the air! Yes, believe this! Aryav AWG filters the air we breathe, condenses it to water, and then the water goes through an Ozone Generator and Filtration process, thus producing water in a pure form. The drinking water holds pH value of more than 7.5, thus making this water safe and healthy for consumption

Not only does it produce water from air, it also dehumidifies and filters the air, thus allowing for pure air in the ambiance.

Just plug in and relax, Aryav AWG works for you!

ARYAV AWG is your Perfect Solution for a Healthy Lifestyle

With ARYAV AWG, you no longer need

AIR Filter

RO

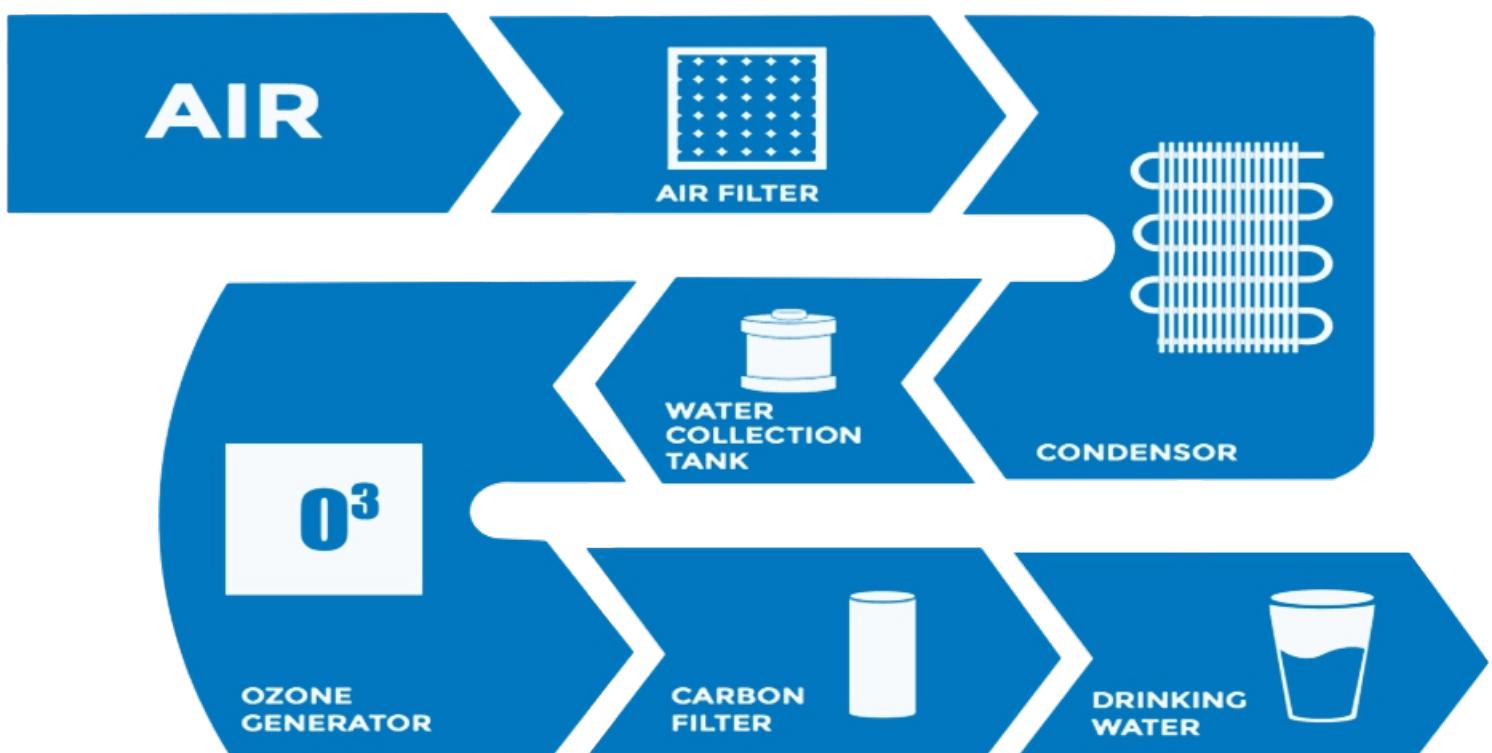

Dehumidifier

ARYAV AWG works to provide you

Pure Water & Pure Air.

HOW ARYAV AWG WORKS

01

WIDE RANGE

RANGE FROM 100 LPD TO 10000 LPD. MEANS WE CAN SERVE THE COMMUNITY FROM 50 PEOPLE TO 5000 PEOPLE

02

LOW OPERATING COSTS

Our Machines require low power consumptions

03

FILTRATION

We are using 7 to 12 stages of filtrations based on the machine capacity

04

INTEGRATE WITH OTHER SOURCES

We have an expertise in Solar, hence there is no difficulty to integrate it with Solar or wind Power.

05

TECHNOLOGICAL ADVANCEMENT

For higher capacities i.e. from 100LPD, one can monitor the water generation and consumption online via IOT / AI

IMPROVED HEALTH

Water from AWG is full of minerals and alkaline water. No acidic water like in other sources.

NO DEPENDENCY

Independent from Monsoons, Groundwater etc.

RANGE

Can serve the community from 50 to 5000 people

LOW OPERATION COST

Rs. 2 per Ltr. makes the cost of water affordable

NO WATER WASTAGE

No Water Wastage, as water is generated from Air

NO INFRASTRUCTURE

No plumbing is required. Just plug and play!

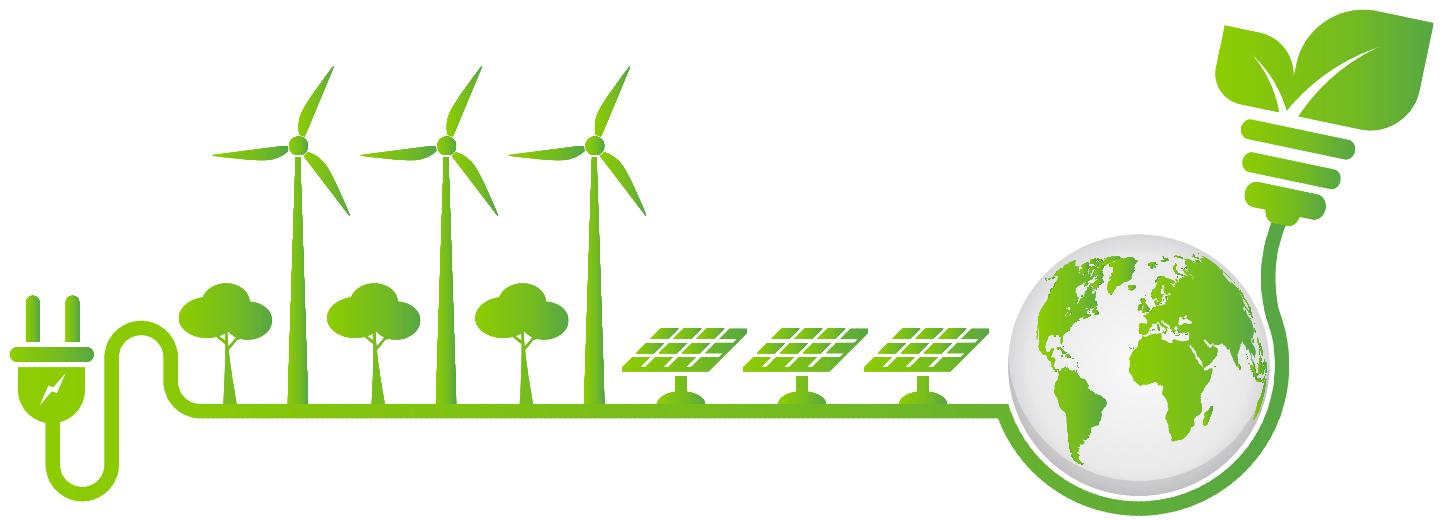

AIR PURIFIER

AWG also acts as Air Purifier and Dehumidifier

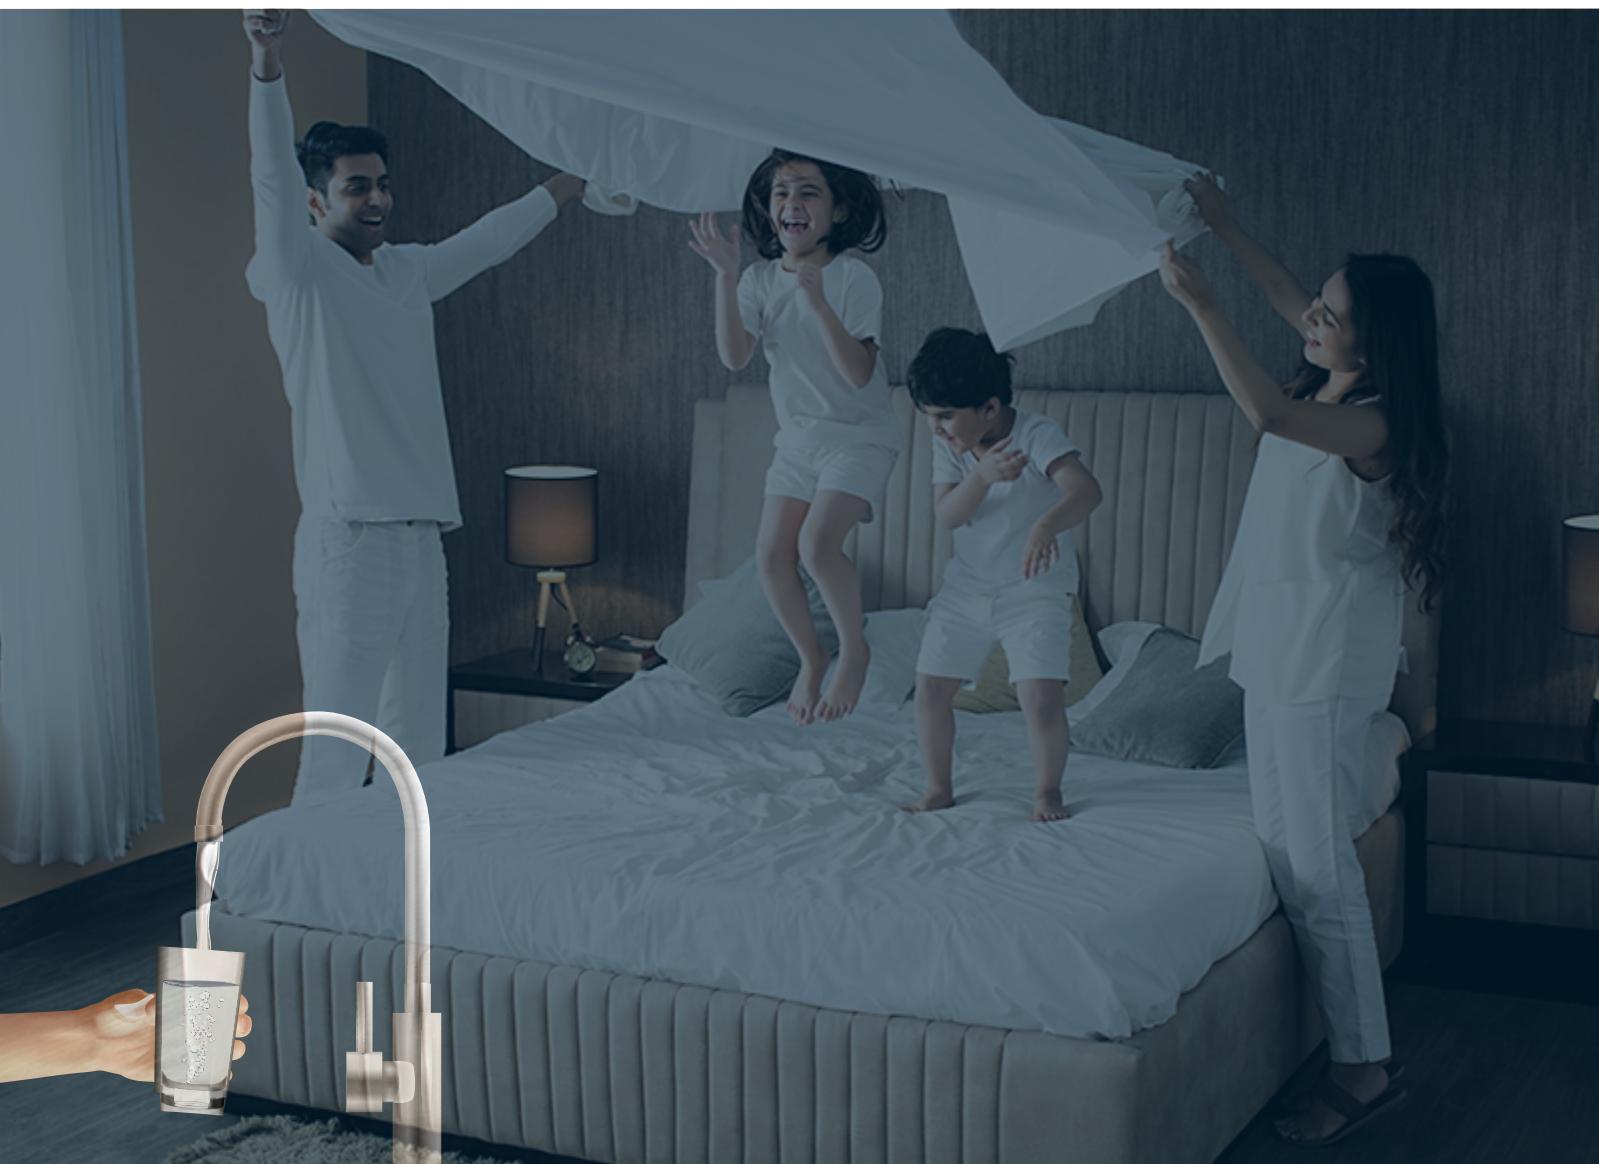

**OUR
ADVANTAGES
& BENEFITS**

ARYAV AWG is Eco Friendly

(Can run on Solar & Wind Power)

Serving the Nation and the Community with
Pure Drinking Water

WHO WE SERVE (MARKET SEGMENTS)

1

INSTITUTIONAL

Range from 100LPD to 500LPD fall in this segment like Panchayats , NGOs , Grant Projects, Offices , Defense, Marine installations, etc

3

INDUSTRIAL

Without access to clean water, there is no way to clean food, dishes, or people. AWG works for you!

2

COMMERCIALS/ COMMUNITY

Range of 250LPD to 1000 LPD , is apt for Malls, Commercial offices, IT Parks , Hospitals, Government Buildings, Railways etc

COMPARISON WITH RO

DIRECT

The competition of AWG is mainly with RO Water, although both are not comparable and are not in same category

- Input Water is Required in RO
- Water Wastage is there in RO
- Installation Cost is required in RO
- Not easily transportable in RO
- Cost of Water generation is low in RO
- RO is Easily available in market

INDIRECT

There are certain indirect advantages of AWG over RO, which are very good for individuals health.

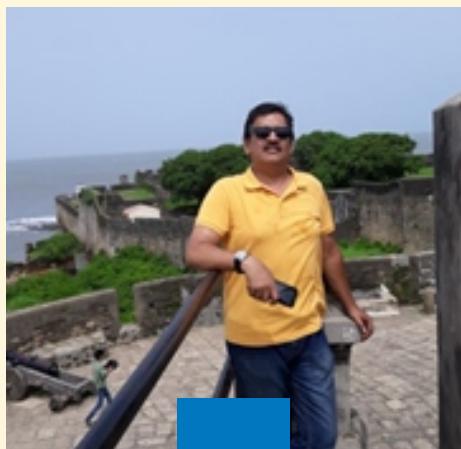

- AWG water is highly pure, alkaline and mineral rich
- AWG water also act as air purifier
- AWG also act as dehumidifier
- AWG is plug and Play system
- AWG doesn't require any infrastructure compared to RO
- AWG need humidity or minimum environment to operate

OUR PRODUCTS

(Capacity of 100 LPD to 10,000 LPD)

OUR TEAM

BHARAT BHUSHAN KAPOOR

Cofounder

Very good Liasioning & self motivator.
Settled in UAE to look after International
marketing and Channel Partners

SANJAY KUMAR GARG

Director

IIT Alumni, very passionate,
visionary and hard working, technically sound and
looking after Sales and Handling OEM

NATWAR DHUWALIA

Cofounder

Great leader, multi tasking and
great critic and amazing capabilities
in Finance.

ARYAV AWG provides a regular source of Drinking water for families, offices and public places, with capacities of 50 to 5000 people per day!
